

Sorrento, 21/09/2025

Dr. Tim Spahr

IAWN manager

I request to join the International Asteroid Warning network (IAWN).

My observatory is located in the hills of Sorrento at an altitude of about 300 meters above sea level.

I observe with a 354 mm f/10 SC telescope with a focal reducer and a SBIG ST10XME camera with V and Rc photometric filters.

My field of study is asteroid astrometry and photometry, as well as exoplanets and everything related to stellar variability.

I am applying to join the IAWN, with which I have already collaborated on upcoming observing campaigns.

I declare that I have read the IAWN Charter and Statement of Intent and understand the obligations of members.
