Scandicci, september 2025

Dr. Tim Spahr IAWN manager

I Matteo Lombardo manager and owner of Zen Astronomical Observatory assigned M.P.C. code "M26" express the intention to join to activity the International Asteroid Warning Network.

The instrumentation present is reflector Ritchey Cretien 12" /f 7,4 with Ccd camera Atik 383L+ FOV 27'x20', VBR filter wheel. Observatory is located in Scandicci (Florence) Italy.

Activity of observation asteroid start from 2022 and till now continue to collect so much observation of Nea and confirmations.

From 2022: 33 Neocp confirmed, 365 Nea observation with over 1400 astrometric measurements. Also performed photometric campaign with the Italian Amateur Association U.A.I for determination light curves and 3d shapes of asteroids.

I declare that I have read the Charter and Statement of Intent of IAWN and understand the obligations of the members
