

T.S. Observatory L92

Toni Scarmato's Observatory, San Costantino di Briatico, February 10 2025

Dear Dr. Tim Spahr and IAWN Steering Committee

On behalf of the T.S. Observatory, with MPC code L92 (San Costantino), I express the intention to join the International Asteroid Warning Network (IAWN). The Observatory has been engaged in observational activities on asteroids and comets since 1999, particularly focusing on photometry and astrometry. Actually, the observatory is equipped with a 0.25-meter f/4.8 reflector and CMOS ASI294MC Pro and consistently conducts observations/follow-up activities for the NEOCP, comets and other asteroids. I hope to soon become a part of your community and actively participate.

I declare that I have read the Charter and Statement of Intent of IAWN and understand the obligations of the members.

Antonio (Toni) Scarmato
